BRITISH COLUMBIA

Ministry of Finance and Corporate Relations

LEGISLATIVE LIBRARY
VICTORIA, BC V8V 1X4

Treasury Board Staff

The Ministry of Finance and Corporate Relations indirectly supports government's health-care, education and economic-development priorities through revenue collection and provision of comprehensive information and sound advice to decision-makers, as well as provision of cost-effective service delivery to clients. This performance plan illustrates how the ministry intends to fulfill its role and further its goals in the 2000/01 fiscal year.

This plan is part of the ministry's response to the requirements of the Budget Transparency and Accountability Act (Bill 2), which was introduced with the 2000/01 provincial budget. This act, which sets the highest standards for budget transparency in the country, required government ministries and agencies to publish performance plans by May 1, 2000. The Ministry of Finance and Corporate Relations is government's primary tax collector, corporate and personal property registrar, banker and money manager, chief accountant, fiscal and economic policy-maker, budget and expenditure manager, and streamlining initiative co-ordinator. Through agencies that report to the minister, it regulates B.C.'s credit unions, trust companies and insurance companies, and the province's securities market. Ministry agencies also administer public-sector pension plans and manage public-sector investments.

The ministry's numerous clients include government ministries and agencies, boards and commissions, Crown corporations, businesses and investors, and financial-sector entities. More broadly, ministry activities and discussions enable informed government decisions that touch the lives of all British Columbians.

Strategic Elements

Vision

To be recognized as a professional organization dedicated to providing quality service and improving accountability.

Mission

To serve British Columbians and government by providing financial sector regulation; revenue collection; services to the public and private sectors; as well as timely, transparent and comprehensive information and advice to enable informed decision making.

Values

The Ministry of Finance and Corporate Relations is an outcome-driven, proactive and client-centred organization with the following values:

- Respect
- Integrity
- Honesty
- Trust

The following expresses our management philosophy:

- Think like a taxpayer
- Provide quality service
- Value people
- Clear, open communication
- Promote and recognize performance
- Simplicity
- Look ahead

Environmental Scan

The Ministry of Finance and Corporate Relations is responsible for responding quickly and effectively to the changing conditions that influence its policy development and service delivery. Ongoing, proactive, expert and timely advice and action are required to address such external and internal factors as:

- The public's expectation of improved transparency and accountability for the spending and management of taxpayers' money.
- Clients' growing expectations that the ministry demonstrate value for money in the services it provides.
- Increasing public and client expectations for more accessible, user-friendly information and electronic services.
- Increasing expectations for more efficient and effective government administration and regulation.
- Government's decision to increase the responsibilities of Treasury Board by assigning to it the responsibilities of the former cabinet committees on Crown corporations and collective bargaining.
- Recent public reports that have highlighted the need to clarify the roles and responsibilities of ministers, ministries, central agencies and Crown corporation boards with respect to Crown governance.
- The availability and retention of staff in both the short and long term.
- The under-representation of equity groups – including women, visible minorities and people with disabilities – in the ministry, and the need to increase recruitment from these groups in order to ensure the ministry's workforce represents the diversity of the province.

Goals

The ministry has identified and adopted the following six goals, which will help it to achieve its vision and mission, and support the government's ability to address its priorities.

1. Collection of all appropriate revenues and effective management of government liabilities and assets

2. Financial and economic information, analysis, planning and recommendations that strengthen the accountability of ministries and other government entities

3. Effective, efficient and valued services and advice to all our clients

4. Enhanced value and accountability for provincial Crown corporations

5. Efficient and effective financial, administrative and regulatory frameworks

6. A highly skilled, innovative, dynamic and professional workforce that is representative of the population the ministry serves

1

Collection of all appropriate revenues and effective management of government liabilities and assets

Strategies / Initiatives	Measures	Milestones
Improve collection of revenues due to the province by:		
• Implementing CTB21 consumption tax administration system.		There are three milestones for this project: • Release 1.0 – Implemented in October 1999, covering taxpayer compliance, motor fuel collectors and website information; • Release 2.0 – To be implemented by July 2000, covering hotel tax, social service tax, and Internet registration; • Release 3.0 – To be implemented by December 2000, covering tobacco tax, horse racing tax, international fuel tax agreement, and administration functions.
• Partnering with private collection agencies and the federal government to set-off personal debts owed to the province against income tax and GST refunds.	• Increase collections from the Canada Customs and Revenue Agency set-off program from $1.2 million in 1999/00 to $1.3 million in 2000/01. • More than double the dollar value of accounts transferred to private collection agencies for collection action (FY 1999/00: $643,000).	

Strategies/Initiatives	Measures	Milestones
• Managing the daily consolidated cash flows of government and, by estimating short term borrowing requirements in advance, choosing the least-cost financing option.	Reduction in opportunity costs for short-term financing (i.e., less than target of $200,000 per annum).	
• Maintaining average annual auditor revenue.	$500,000 annual average per auditor.	
Follow up Auditor General's recommendations on the collection of overdue receivables, including working with the ministries to develop an effective, centralized accounts receivable collection system.	• Attainment of performance targets for collection of government's overdue accounts receivable. • Improve efficiency (ratio of revenues to collection resources expended) by 10 per cent on existing student loan portfolio.	• Implementation of recommendations in OAG 1998/99 Report #3 by March 31, 2001. • For 2000/01 the Ministry of Social Development and Economic Security will transfer $36 million in accounts.
Minimize the government's cost of borrowing by maintaining daily interaction with the global capital markets to identify the lowest-cost financing opportunities through a diversified set of borrowing facilities.	Cost of issuing in the international markets is less than the cost of issuing in the domestic market. (In 1999/2000, annual interest cost savings totalled $776,000.)	
Provide cost-effective risk management financing programs for government and public-sector agency clients.	Cost of the self-insurance initiatives of government are less than traditional risk-financing alternatives (at least $370 million saved since program's inception).	

GOAL 1

Collection of all appropriate revenues and effective management of government liabilities and assets

STRATEGIES / INITIATIVES	MEASURES	MILESTONES
Improve collection of revenues due to the province by:		
• Implementing CTB21 consumption tax administration system.		There are three milestones for this project: • Release 1.0 - Implemented in October 1999, covering taxpayer compliance, motor fuel collectors and website information; • Release 2.0 - To be implemented by July 2000, covering hotel tax, social service tax, and Internet registration; • Release 3.0 - To be implemented by December 2000, covering tobacco tax, horse racing tax, international fuel tax agreement, and administration functions.
• Partnering with private collection agencies and the federal government to set-off personal debts owed to the province against income tax and GST refunds.	• Increase collections from the Canada Customs and Revenue Agency set-off program from $1.2 million in 1999/00 to $1.3 million in 2000/01. • More than double the dollar value of accounts transferred to private collection agencies for collection action (FY 1999/00: $643,000).	

Strategies / Initiatives	Measures	Milestones
• Managing the daily consolidated cash flows of government and, by estimating short term borrowing requirements in advance, choosing the least-cost financing option.	Reduction in opportunity costs for short-term financing (i.e., less than target of $200,000 per annum).	
• Maintaining average annual auditor revenue.	$500,000 annual average per auditor.	
Follow up Auditor General's recommendations on the collection of overdue receivables, including working with the ministries to develop an effective, centralized accounts receivable collection system.	• Attainment of performance targets for collection of government's overdue accounts receivable. • Improve efficiency (ratio of revenues to collection resources expended) by 10 per cent on existing student loan portfolio.	• Implementation of recommendations in OAG 1998/99 Report #3 by March 31, 2001. • For 2000/01 the Ministry of Social Development and Economic Security will transfer $36 million in accounts.
Minimize the government's cost of borrowing by maintaining daily interaction with the global capital markets to identify the lowest-cost financing opportunities through a diversified set of borrowing facilities.	Cost of issuing in the international markets is less than the cost of issuing in the domestic market. (In 1999/2000, annual interest cost savings totalled $776,000.)	
Provide cost-effective risk management financing programs for government and public-sector agency clients.	Cost of the self-insurance initiatives of government are less than traditional risk-financing alternatives (at least $370 million saved since program's inception).	

Strategies / Initiatives	Measures	Milestones
Lead, provide expertise, monitor and report on ministry and public agency efforts in business continuation planning (BCP) and security/loss control.		• New cross-government BCP template to be issued by March 2001. • BCP exercises to be scheduled by March 2001.
Risk identification and analyses for public K-12 and post-secondary education sectors.	Review 10 school districts and 3 post-secondary institutions per year.	
Provide cost-effective tangible and intangible asset management services for government and public-sector agency clients.	• Savings through reallocation of surplus assets ($250,000 in 1999/2000). • Net recoveries from the licensing and disposal of intangible property ($650,000 in 1999/2000). • Net recoveries from the disposal of tangible property ($2.8M in 1999/2000).	

GOAL 2

Financial and economic information, analysis, planning and recommendations that strengthen the accountability of ministries and other government entities

Strategies / Initiatives	Measures	Milestones
Implement the provisions of the *Budget Transparency and Accountability Act* (Bill 2) as they relate to the Ministry of Finance and Corporate Relations by producing financial reports in accordance with that Act.		• Estimates and other related reports (economic and fiscal forecast, major capital project information, etc.) are presented before the commencement of the fiscal year to allow debate. • Revised fiscal forecasts are released with each quarterly report. • Revised fiscal forecasts are released every time special warrants are approved. • Summary quarterly statements released by dates set out in the *Budget Transparency and Accountability Act* (Bill 2). • Public accounts released by August 31, 2000. • Debt statistics report to be ready for release coincident with the public accounts.
Establish the framework and guidelines for producing performance plans and reports for ministries and other government organizations (e.g., Crown corporations) in accordance with the *Budget Transparency and Accountability Act* (Bill 2).		• Guidelines for performance plans available by November 2000 (to enable three-year performance plans for ministries and other government organizations to be made public by April 30, 2001). • Guidelines for performance reports available by December 2000 (to enable performance reports for ministries and other government organizations to be made public by June 30, 2001).

Strategies/Initiatives	Measures	Milestones
Lead, provide expertise, monitor and report on ministry and public agency efforts in business continuation planning (BCP) and security/loss control.		• New cross-government BCP template to be issued by March 2001. • BCP exercises to be scheduled by March 2001.
Risk identification and analyses for public K-12 and post-secondary education sectors.	Review 10 school districts and 3 post-secondary institutions per year.	
Provide cost-effective tangible and intangible asset management services for government and public-sector agency clients.	• Savings through reallocation of surplus assets ($250,000 in 1999/2000). • Net recoveries from the licensing and disposal of intangible property ($650,000 in 1999/2000). • Net recoveries from the disposal of tangible property ($2.8M in 1999/2000).	

2

Financial and economic information, analysis, planning and recommendations that strengthen the accountability of ministries and other government entities

Strategies / Initiatives	Measures	Milestones
Implement the provisions of the *Budget Transparency and Accountability Act* (Bill 2) as they relate to the Ministry of Finance and Corporate Relations by producing financial reports in accordance with that Act.		• Estimates and other related reports (economic and fiscal forecast, major capital project information, etc.) are presented before the commencement of the fiscal year to allow debate. • Revised fiscal forecasts are released with each quarterly report. • Revised fiscal forecasts are released every time special warrants are approved. • Summary quarterly statements released by dates set out in the *Budget Transparency and Accountability Act* (Bill 2). • Public accounts released by August 31, 2000. • Debt statistics report to be ready for release coincident with the public accounts.
Establish the framework and guidelines for producing performance plans and reports for ministries and other government organizations (e.g., Crown corporations) in accordance with the *Budget Transparency and Accountability Act* (Bill 2).		• Guidelines for performance plans available by November 2000 (to enable three-year performance plans for ministries and other government organizations to be made public by April 30, 2001). • Guidelines for performance reports available by December 2000 (to enable performance reports for ministries and other government organizations to be made public by June 30, 2001).

STRATEGIES / PROGRAMS	MEASURES	MILESTONES
Develop an implementation plan for the recommendations of the Deloitte Consulting Report on the capital management process.		Implementation plan developed by June 30, 2000.
Provide review, audit and advisory services in the areas of highest risk and potential reward that identify improvements in program economy, efficiency and effectiveness.	Continue identifying improvements (annual average over past five years has been approximately $20M).	

GOAL 3

Effective, efficient and valued services and advice to all our clients

Strategies/Initiatives	Measures	Milestones
Improve the efficiency and effectiveness of financial and administrative services by identifying and implementing best practices through benchmarking initiatives.	Number and potential savings or process improvement initiatives identified.	Implementation plan for all financial functions and selected human resource processes prepared by June 30, 2000
Support/accelerate adoption of electronic commerce (e-business) in government by:		
• Converting the corporate registry from a substantially document-based registry to a substantially electronic corporate registry.	The cumulative net savings are projected to increase to $1.3 million per year within three years of implementation.	Electronic corporate registry operational by October 2001.
• Developing and implementing ministry security policies and procedures to support e-business.		Policies and procedures in place by March 31, 2001.
• Developing ministry standards for ESD WEB application development.		Standards developed by March 31, 2001.
• Implementing supplier notification functionality on the BC Bid system and the capability to accept electronic bids from suppliers.		System operational by March 31, 2001.

Strategies / Initiatives	Measures	Milestones
Develop an implementation plan for the recommendations of the Deloitte Consulting Report on the capital management process.		Implementation plan developed by June 30, 2000.
Provide review, audit and advisory services in the areas of highest risk and potential reward that identify improvements in program economy, efficiency and effectiveness.	Continue identifying improvements (annual average over past five years has been approximately $20M).	

GOAL 3

Effective, efficient and valued services and advice to all our clients

Strategies / Initiatives	Measures	Milestones
Improve the efficiency and effectiveness of financial and administrative services by identifying and implementing best practices through benchmarking initiatives.	Number and potential savings or process improvement initiatives identified.	Implementation plan for all financial functions and selected human resource processes prepared by June 30, 2000
Support/accelerate adoption of electronic commerce (e-business) in government by:		
• Converting the corporate registry from a substantially document-based registry to a substantially electronic corporate registry.	The cumulative net savings are projected to increase to $1.3 million per year within three years of implementation.	Electronic corporate registry operational by October 2001.
• Developing and implementing ministry security policies and procedures to support e-business.		Policies and procedures in place by March 31, 2001.
• Developing ministry standards for ESD WEB application development.		Standards developed by March 31, 2001.
• Implementing supplier notification functionality on the BC Bid system and the capability to accept electronic bids from suppliers.		System operational by March 31, 2001.

Strategies / Initiatives	Measures	Milestones
• Providing appropriate cost savings incentives for clients to adopt new banking technologies.	• Number of new financial services adopted (e.g., remittance processing, telephone banking). • Number of entities that adopt new technologies. • Reduced program costs attributable to new technologies adopted.	
• Developing an electronic output strategy (printing) to establish system capability to route printing requests from workstations to the lowest-cost option, within turnaround time requirement.		Pilot project implemented by September 30, 2000.
• Improving the functionality of the electronic travel voucher including the ability to electronically transfer the data into the corporate accounting system.		Project completed by March 31, 2001.
• Implementing a common design and search engine for the top-tier pages of government Web sites to provide improved functionality and access by the public and business community.		Project completed by June 30, 2000.

Strategies/Initiatives	Measures	Milestones
• Implementing a system, in partnership with the Ministry of Education, to provide authorized school, school district and ministry staff with Web access to searchable, linked, databases of provincially recommended learning resources and learning outcomes.		System operational by March 31, 2001.
• Initiating work to consolidate the current four separate finance and administration policy and procedure manuals into one consolidated manual.		Project 25 per cent complete by March 31, 2001.
• Completing a feasibility study to deliver services electronically to revenue division clients.		Feasibility study completed by December 31, 2000.

Strategies/Initiatives	Measures	Milestones
• Providing appropriate cost savings incentives for clients to adopt new banking technologies.	• Number of new financial services adopted (e.g., remittance processing, telephone banking). • Number of entities that adopt new technologies. • Reduced program costs attributable to new technologies adopted.	
• Developing an electronic output strategy (printing) to establish system capability to route printing requests from workstations to the lowest-cost option, within turnaround time requirement.		Pilot project implemented by September 30, 2000.
• Improving the functionality of the electronic travel voucher including the ability to electronically transfer the data into the corporate accounting system.		Project completed by March 31, 2001.
• Implementing a common design and search engine for the top-tier pages of government Web sites to provide improved functionality and access by the public and business community.		Project completed by June 30, 2000.

Strategies / Initiatives	Measures	Milestones
• Implementing a system, in partnership with the Ministry of Education, to provide authorized school, school district and ministry staff with Web access to searchable, linked, databases of provincially recommended learning resources and learning outcomes.		System operational by March 31, 2001.
• Initiating work to consolidate the current four separate finance and administration policy and procedure manuals into one consolidated manual.		Project 25 per cent complete by March 31, 2001.
• Completing a feasibility study to deliver services electronically to revenue division clients.		Feasibility study completed by December 31, 2000.

Strategies / Initiatives	Measures	Milestones
Provide corporate services to government that contribute to reducing the cost impact on government program delivery.	• Maintain cost avoidance through central agency procurement of goods and services (difference between selected bid and average of qualified bids – 1999/00: $41.4M) • Maintain cost avoidance for short-term vehicle rental and accommodation through establishment of government discount rates (1999/00: $2.6M). • Maintain cost avoidance for distribution of government mail (1999/00: $3M).	
Enhance taxpayer education by increasing the content of and access to information provided by the revenue division and by revising revenue division's Web sites to be consistent in look and feel across all branches.		Web sites to be revised by December 31, 2000.
Maintain or improve effective communications with the financial community by expanding the use of electronic services to reach a broader range of investors.		New electronic communication services adopted, as well as development of a standard key information package for investors by September 2000.

GOAL 4

Enhanced value and accountability for provincial Crown corporations

Strategies / Initiatives	Measures	Milestones
Improve governance of Crown corporations by continuing to work with them to bring about an effective, modern governance framework that addresses key issues identified by government, Crown corporations and the Auditor General.		Development of guidelines/ frameworks or protocols which clarify the roles and information requirements of Treasury Board, legislative committees, ministers responsible, central agencies, boards and management, by September 30, 2000.
Define Crown financial reporting requirements and deadlines to meet the requirements of the *Budget Transparency and Accountability Act* (Bill 2).		Requirements and deadlines defined by May 31, 2000.
Develop an implementation plan for the recommendations of the Deloitte Consulting Report on the capital management process.		Plan developed by June 30, 2000.

Strategies / Initiatives	Measures	Milestones
Provide corporate services to government that contribute to reducing the cost impact on government program delivery.	• Maintain cost avoidance through central agency procurement of goods and services (difference between selected bid and average of qualified bids - 1999/00: $41.4M) • Maintain cost avoidance for short-term vehicle rental and accommodation through establishment of government discount rates (1999/00: $2.6M). • Maintain cost avoidance for distribution of government mail (1999/00: $3M).	
Enhance taxpayer education by increasing the content of and access to information provided by the revenue division and by revising revenue division's Web sites to be consistent in look and feel across all branches.		Web sites to be revised by December 31, 2000.
Maintain or improve effective communications with the financial community by expanding the use of electronic services to reach a broader range of investors.		New electronic communication services adopted, as well as development of a standard key information package for investors by September 2000.

GOAL 4

Enhanced value and accountability for provincial Crown corporations

Strategies / Initiatives	Measures	Milestones
Improve governance of Crown corporations by continuing to work with them to bring about an effective, modern governance framework that addresses key issues identified by government, Crown corporations and the Auditor General.		Development of guidelines/ frameworks or protocols which clarify the roles and information requirements of Treasury Board, legislative committees, ministers responsible, central agencies, boards and management, by September 30, 2000.
Define Crown financial reporting requirements and deadlines to meet the requirements of the *Budget Transparency and Accountability Act* (Bill 2).		Requirements and deadlines defined by May 31, 2000.
Develop an implementation plan for the recommendations of the Deloitte Consulting Report on the capital management process.		Plan developed by June 30, 2000.

GOAL 5

Efficient and effective financial, administrative and regulatory frameworks

STRATEGIES / INITIATIVES	MEASURES	MILESTONES
Promote better regulatory policy and enforcement, including minimizing regulatory impacts in the province by:		
• Providing support for the business task force on regulatory impact to carry out its mandate.	• Streamlining proposals received by business task force are reviewed by affected ministries. • Streamlining website is current; by June 30, 2000, it will contain a searchable database and an electronic submission form.	
• Monitoring other ministries' implementation of streamlining proposals and projects.		Government-wide progress reported each quarter on implementing streamlining proposals and major projects.
• Continuing to implement the governmentis regulatory impact statement policy and procedures (as approved June 1999)	Training sponsored by streamlining office related to regulatory impact statement policies and procedures.	
• Implementing Ministry of Finance and Corporate Relations streamlining projects and regulatory impact statement requirements.	No complaints from affected parties that ministry has not completed a regulatory impact statement as directed by the minister on the advice of the business task force.	Ministry progress reported each quarter on implementing ministry streamlining projects and proposals.

Strategies / Initiatives	Measures	Milestones
Effective, efficient and equitable regulation of the financial services and real estate sectors in British Columbia by:		
• Monitoring financial institutions authorized to operate in British Columbia to ensure prudent operation and compliance with market conduct regulatory requirements.	The following measures relate to all three strategies: • Consumers generally have confidence in the financial institutions authorized to operate in British Columbia. • Those who are regulated generally consider that they have been treated fairly.	
• Regulating compliance by insurance licensees, real estate developers, realtors and mortgage brokers with appropriate regulatory requirements.		
• Taking appropriate regulatory action against unlicensed activity.		

5

Efficient and effective financial, administrative and regulatory frameworks

Strategies/Initiatives	Measures	Milestones
Promote better regulatory policy and enforcement, including minimizing regulatory impacts in the province by:		
• Providing support for the business task force on regulatory impact to carry out its mandate.	• Streamlining proposals received by business task force are reviewed by affected ministries. • Streamlining website is current; by June 30, 2000, it will contain a searchable database and an electronic submission form.	
• Monitoring other ministries' implementation of streamlining proposals and projects.		Government-wide progress reported each quarter on implementing streamlining proposals and major projects.
• Continuing to implement the government's regulatory impact statement policy and procedures (as approved June 1999)	Training sponsored by streamlining office related to regulatory impact statement policies and procedures.	
• Implementing Ministry of Finance and Corporate Relations streamlining projects and regulatory impact statement requirements.	No complaints from affected parties that ministry has not completed a regulatory impact statement as directed by the minister on the advice of the business task force.	Ministry progress reported each quarter on implementing ministry streamlining projects and proposals.

STRATEGIES / INITIATIVES	MEASURES	OUTCOMES
Effective, efficient and equitable regulation of the financial services and real estate sectors in British Columbia by:		
• Monitoring financial institutions authorized to operate in British Columbia to ensure prudent operation and compliance with market conduct regulatory requirements.	The following measures relate to all three strategies: • Consumers generally have confidence in the financial institutions authorized to operate in British Columbia. • Those who are regulated generally consider that they have been treated fairly.	
• Regulating compliance by insurance licensees, real estate developers, realtors and mortgage brokers with appropriate regulatory requirements.		
• Taking appropriate regulatory action against unlicensed activity.		

Strategies/Initiatives	Measures	Milestones
Develop and maintain an effective and efficient common financial system for government that meets the province's business requirements.		Corporate accounting system scheduled implementations successfully completed on time and within budget: Ministries of Health, Finance, and Social Development and Economic Security, as well as legislative assembly, ombudsman, information and privacy office, vital statistics, forest practices, Royal BC Museum, auditor general, and environmental assessment and land use co-ordination office, join oracle financials in the 2000/01 fiscal year.
Facilitate public-sector labour relations and human resource management practices so they are less adversarial.	• Number of settlements within mandate. • Less third-party and government intervention in bargaining. • Reduction in arbitration and grievance costs.	

6

A highly skilled, innovative, dynamic and professional workforce that is representative of the population the ministry serves

Strategies/Initiatives	Measures	Targets
Orient new employees to the ministry and ensure all employees gain the knowledge and skills to do their jobs expertly and efficiently to support the ministry's changing needs, by:		
• Ensuring all new employees attend ministry orientation programs.	100 per cent of new employees attend ministry orientation programs.	Orientation website implemented by August 1, 2000.
• Identifying job knowledge and skills (i.e., competencies) required for employees to do their jobs.		Top 10 competencies and supporting performance measures most commonly required in ministry jobs identified by January 30, 2001.
• Providing learning and development opportunities for employees to gain the knowledge and skills they require.	Operational priorities permitting, a ministry-wide target of 10,000 development days per year, achieved within three years.	

Strategies/Initiatives	Measures	Milestones
Develop and maintain an effective and efficient common financial system for government that meets the province's business requirements.		Corporate accounting system scheduled implementations successfully completed on time and within budget: Ministries of Health, Finance, and Social Development and Economic Security, as well as legislative assembly, ombudsman, information and privacy office, vital statistics, forest practices, Royal BC Museum, auditor general, and environmental assessment and land use co-ordination office, join oracle financials in the 2000/01 fiscal year.
Facilitate public-sector labour relations and human resource management practices so they are less adversarial.	• Number of settlements within mandate. • Less third-party and government intervention in bargaining. • Reduction in arbitration and grievance costs.	

GOAL 6

A highly skilled, innovative, dynamic and professional workforce that is representative of the population the ministry serves

Strategies / Initiatives	Measures	Milestones
Orient new employees to the ministry and ensure all employees gain the knowledge and skills to do their jobs expertly and efficiently to support the ministry's changing needs, by:		
• Ensuring all new employees attend ministry orientation programs.	100 per cent of new employees attend ministry orientation programs.	Orientation website implemented by August 1, 2000.
• Identifying job knowledge and skills (i.e., competencies) required for employees to do their jobs.		Top 10 competencies and supporting performance measures most commonly required in ministry jobs identified by January 30, 2001.
• Providing learning and development opportunities for employees to gain the knowledge and skills they require.	Operational priorities permitting, a ministry-wide target of 10,000 development days per year, achieved within three years.	

Strategies / Initiatives	Measures	Milestones
Attract qualified staff representative of the population we serve, to carry out the ministry's mandate by:		
• Reviewing all job advertisements to ensure they accurately reflect the duties based on bona fide job requirements, and promote the principles of equity and diversity.	• 100 per cent of all advertised jobs will be accurately described and classified. • 75 per cent of out-of-service jobs will have improved staffing practices (e.g., revitalised language in ads; competency based recruitment; exit interviewing) to ensure we are able to compete with other employers.	Continue to identify and remove barriers to employment equity with a status report produced by September 25, 2000.
• Using and promoting identified competencies in the selection process to hire new staff.	Increase use of competency-based selection processes to 40 per cent from 30 per cent.	
• Developing an updated ministry succession plan with recommendations on attracting, developing and retaining staff.		Complete a ministry succession plan by November 1, 2000.

Strategies/Initiatives	Measures	Milestones
Ensure employees are properly compensated and career advancement opportunities exist through the effective use of existing job classification plans and organizational design principles, by:		
• Identifying what jobs need to be classified and prioritizing the work necessary to classify them.		• Inventory all outstanding jobs requiring evaluation by October 31, 2000. • Establish a priority ranking scale (e.g., high, medium and low) based on key factors like operational need, contractual commitments and central agency direction, by November 2, 2000. • Develop a timeline to review all jobs starting with the highest priority by December 1, 2000.
• Developing more growth series and generic jobs to allow for career advancement and promote movement of staff to needed areas.	• Increase the number of growth series and generic job descriptions by 10 per cent. • Identify career paths for 60 per cent of all ministry jobs.	
Provide an environment of leadership and support where employee contributions are recognized and valued by implementing and supporting division recognition programs.	•100 per cent of suggestions received from staff are reviewed and decided within two months of initial receipt. • Implement at least three recognition events per division each year. • Implement one work process review per division each year.	

Strategies / Initiatives	Measures	Milestones
Attract qualified staff representative of the population we serve, to carry out the ministry's mandate by:		
• Reviewing all job advertisements to ensure they accurately reflect the duties based on bona fide job requirements, and promote the principles of equity and diversity.	• 100 per cent of all advertised jobs will be accurately described and classified. • 75 per cent of out-of-service jobs will have improved staffing practices (e.g., revitalised language in ads; competency based recruitment; exit interviewing) to ensure we are able to compete with other employers. • Identifying what jobs need to be classified and prioritizing the work necessary to classify them.		• Inventory all outstanding jobs requiring evaluation by October 31, 2000. • Establish a priority ranking scale (e.g., high, medium and low) based on key factors like operational need, contractual commitments and central agency direction, by November 2, 2000. • Develop a timeline to review all jobs starting with the highest priority by December 1, 2000.
• Developing more growth series and generic jobs to allow for career advancement and promote movement of staff to needed areas.	• Increase the number of growth series and generic job descriptions by 10 per cent. • Identify career paths for 60 per cent of all ministry jobs.	
Provide an environment of leadership and support where employee contributions are recognized and valued by implementing and supporting division recognition programs.	• 100 per cent of suggestions received from staff are reviewed and decided within two months of initial receipt. • Implement at least three recognition events per division each year. • Implement one work process review per division each year.	

Support of Government Priorities

By collecting revenues that fund government activities, providing comprehensive information and sound advice to decision-makers, and providing public- and private-sector clients with cost-effective service, the Ministry of Finance and Corporate Relations indirectly supports government's health-care, education and economic-development priorities. In addition, the ministry provides timely, transparent and comprehensive information to decision-makers and the public, supporting the government's commitment to openness in financial and budgetary reporting.
